

## Eliminates Sludge and Water

**BFS Fuel Oil Sludge Remover** is engineered to eliminate sludge and water from fuel oils and bunker fuels. **BFS's** specially formulated chemical base dissolves sludge into a combustible substance, simultaneously cleaning and clearing filters, strainers, and nozzles. **BFS** also helps to improve fuel atomization and will provide a more efficient combustion. Effective in #1, 2, 4, 5 and 6 fuels.

Description	Item No.	Treats (gal.)
5 Gal Pail	00107	20,000
55 Gal Drum	00108	220,000
